# Install an update

<font 16px/inherit;;inherit;;inherit>**This instruction will guide you on how to install a software update.** </font>

Read Software revisions to see the latest changes.

<font 16px/inherit;;inherit;;inherit>- If you see this symbol on the start screen (to the left, above the “Settings”-button), it means that you have an available update to install.</font>

<font 16px/inherit;;inherit;;inherit>Software updates is necessary for you to install. An update mainly contain bug fixes, new features and better performance overall. The symbol is shown once we at Envirologic has transferred the update file to your EVO Cleaner. The update must physically be installed from the robots display. It's not possible for Enviologic to install the update from the office. The installation procedure is very easy to do and takes just a minute. Once you see the update symbol on the start screen, feel free to install it as soon as possible.</font>
