Water valve

Part number: 1101100-F

Part of EVO Cleaner assembly 2 - 1109502

The water valve can get blocked/clogged with particles if the incoming water is dirty. Always use a water filter on the incoming water by the high-pressure washer.

Link: How to clean the water valve.

ITEM	DESCRIPTION	PART NUMBER	QTY
1	Magnetic valve	1101100	1
2	Plunge	969202	1
3	Spring	969203	1
4	Plug	969204	1
