Hose reel stuck

This is a hard alarm.

Description

The hose reel has stuck and the robot cannot disentangle it.

Troubleshooting

- Check that the hose spreader is working
    - Check that the hose spreader is centered
    - Check that the hose is evenly distributed on the reel
- Check that the hose reel motor is working
- Check that the hose is not caught in the surroundings
- Check that the hose reel is moving freely
- Check that the hose is tightly wound on the reel
    - Hose grows on reel
